

## D4 Data and Ethics

Autumn 2022 | Lecture 3 - Coaching

Focus: Information security & cybersecurity | Author: Prof. Dr. Petra Maria Asprion | FHNW

Part I Repetition L1	→ SD1
Part II Organization Layer: Relevant References	→ SD2
Part III Organization Layer: First control - IS Policy	→ SD3
Part IV Organization Layer: Selective control - GEIGER	→ SD4
Coaching Session #3	→ SD5

→ SD = Slide Deck

## The theme is "be protected"

You have one individual task described in the following, which you should work during your coaching session.

The aim is that you

- a) "be protected" in terms of developing a tailored control an Information Security Policy
- b) get an experience of how to create such a policy based on the NIST "Information Security Handbook" and the selected example from Harvard University.

Note: There will be a FAQ, if any, from after the coaching sessions – on Moodle

# **Develop an Information Security Policy**

Use the outlines from slide deck III about an "Information Security Policy" as control as well as the provided template.

### Recommended Literature

Be protected

NIST SP 800-53, Revision 1, 'Recommended Security Controls for Federal Information Systems,' 2006

Information Security Handbook - A Guide for Managers -

https://nvlpubs.nist.gov/nistpubs/Legacy/SP/nistspecialpublication800-100.pdf.

And see also: <a href="https://csrc.nist.gov/publications/detail/sp/800-100/final">https://csrc.nist.gov/publications/detail/sp/800-100/final</a>

Example: Harvard University -- <a href="https://policy.security.harvard.edu/policies">https://policy.security.harvard.edu/policies</a>

This is your self learning area: it is recommended that you walk through the recommended and provided publications to achieve an understanding about a.) reference models (as the information security handbook from NIST) or b.) how it is transferred into practice - an example like the one from Harvard University.
